KASHISH GOEL

Frontend Developer | React.js | Next.js | TypeScript

Noida, Uttar Pradesh | +91 81717 44555 | kashishgoel35@gmail.com | linkedin.com/in/Kashish | github.com/Kashish998

PROFESSIONAL SUMMARY

Frontend Developer with 2+ years of experience (1.5 years full-time plus internships) building production web applications with React.js, Next.js, TypeScript and Tailwind CSS. Shipped features for 4 client products, including IndiaMART's HelloTrade and a visa application portal with CRM, and delivered a full UI redesign of the Indirow platform. Skilled in REST API integration, JWT authentication, role-based access control (RBAC), reusable component libraries, responsive design and web performance optimisation.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL, Java

Frontend: React.js, Next.js, Redux Toolkit, React Hooks, Tailwind CSS, ShadCN UI, Responsive Design, Component Libraries

Backend & APIs: REST APIs, Axios, JWT Authentication, Role-Based Access Control (RBAC), Prisma ORM, PostgreSQL

Performance & Tools: Lighthouse, Web Performance Optimisation, SEO, Git, GitHub, Postman, Vercel, VS Code

PROFESSIONAL EXPERIENCE

Software Developer (Frontend) | NovoStack Pvt. Ltd. Apr 2025 – Present

Noida, Uttar Pradesh

- Develop and ship responsive web applications in React.js, Next.js and TypeScript for 4 client products, owning features end to end from requirements to production release.
- Built a reusable UI component library with Tailwind CSS and ShadCN UI, shared across all client projects to speed up delivery of new screens and keep the UI consistent.
- Integrate REST APIs using Axios, implementing JWT-based authentication and role-based access control (RBAC) for customer and admin users.
- Work with designers, backend developers and clients to turn design specifications into pixel-accurate, responsive interfaces and resolve production bugs.

Key Client Projects

- **HelloTrade (IndiaMART):** Built responsive UI components and product features for IndiaMART's B2B trade web app; fixed usability and cross-device responsiveness issues.
- **Indirow (Internovo):** Delivered a complete UI redesign, rebuilding every screen to a new design specification and integrating existing APIs into the new interface.
- **Compass Visa Apply – Portal & CRM (Leverage):** Built shared React components for the customer-facing visa portal and internal CRM; integrated REST APIs and shipped enhancements across both.
- **OneBharat – Landing Page & Web App (Internovo):** Developed responsive layouts and UI features for the landing page and web app against evolving requirements.

Software Development & Testing Intern | VIDYAOne IT Solution Pvt. Ltd. Jan 2025 – Mar 2025

Lucknow, Uttar Pradesh

- Built a responsive travel website optimised for mobile and desktop.
- Ran Lighthouse performance and SEO audits and implemented the fixes, improving page performance and SEO scores.

Software Development Engineer Intern | Hungama Digital Media Entertainment Jun 2024 – Sep 2024

Noida, Uttar Pradesh

- Contributed to the UI redesign of Hungama's music and video streaming web platform, a large-scale consumer product.
- Converted new UI designs into responsive, production-ready components in collaboration with the design and frontend teams.

EDUCATION

B.Tech, Computer Science and Engineering 2021 – 2025

Dronacharya College of Engineering, Gurugram, Haryana
